Speaker: Hector Blanco - Keizer fire district

Keizer fire district has been working with Neighborhood associations to understand the need within the community.

Fire district keeps an eye out for houses that might be an issue in the future and ensure, if and when called to address an issue, that they can provide the necessary resources to assist.

Fire district has resources for mental health, drug and alcohol abuse, immigration, seniors and veterans. All this with the aim to reduce the need for actual police and fire resources needed when issues are not emergent. Fire district is working on a website that will allow the public to find resources without having to call the fire district.

Willow Lake Rd Parking issue

Willow Lake Rd has an area with a small curve of the road that narrows and there have been several issues with cars parked partially off the street that have been hit. Lately there have been cars parked there on and off and no other issues have arisen.

Graffiti and JROTC McNary

Keizer United wants to help the program and help the cadets with resources. Hersh will attend Keizer United meetings in representation of the cadets and their program and will submit a request for funds from Keizer United to help purchase materials for the cleanups they want to do and volunteer for.

Most of the cadets in the program are Freshmen/Sophomores.

Hersh will work with Ben to create a process and document how the volunteering will be done and who will manage the activity.
